Art Unit: 1616

Applicant's arguments filed 10/15/02 and 1/3/03 have been fully considered but they are not persuasive.

I. Rejection claims 1,2,4 under 35 U.S.C. 102(a) as being anticipated by Basak will be maintained for reasons on record and reason as follows. New claims 7 and 8 are added to this rejection.

Applicant argues that Basak et al is not prior art with respect to the instant invention. Applicant further argues that the European Patent Office forwarded a registered copy of the priority document to the USPTO by the International Bureau. Applicant argues that submission of this document cancels Basak as prior art.

Examiner acknowledges receipt of priority document. However, document is not in English as requested by the Examiner in paper no. 5. Please forward English translation of priority document to Examiner.

Claims Objection / Allowable Subject Matter

Claims 3,9 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims. Claim 6 is allowable. The prior art does not teach or suggest the instant composition / method comprising grapevine plants.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CAR 1.136(a).

Art Unit: 1616

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CAR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
